

INSTITUTE OF INTERNATIONAL CONTAINER LESSORS

FOR IMMEDIATE RELEASE
17 December 2010

FIRST REEFER COURSE OF 2011 TO BE HELD IN SHANGHAI IN FEBRUARY

Washington, DC— IICL will hold its first Refrigerated Container course of 2011 from 15 - 17 February in Shanghai, China.

This 3 day course will offer intensive instruction of IICL reefer container inspection and repair guidelines. Other topics planned for the course will be drawn from the following: reefer body construction and machinery inspection. Depot sessions will provide practical demonstrations of principles discussed in class. The classroom and practical training sessions will be held at the Donghwa Depot. The machinery presentation will also be conducted at the depot where students will be able to view and participate in practical demonstrations of subjects as they are covered in the classroom.

The deadline for receipt at IICL of registrations and course tuition fees for the Shanghai, China Reefer course is February 8th. The tuition fee is US \$1000.00, payable by credit card, wire transfer or with a check (must be drawn on a U.S. branch or affiliate of your bank). The tuition fee includes a copy of the pocket-size course textbook (*Guide for Refrigerated Container Inspection and Repair, 3rd edition*) and a Farewell Dinner. The course will be conducted in English, with a Mandarin Translator present. Upon successful completion of the course all participants will receive a certificate.

Anyone interested in the course may register online by visiting IICL's website. The registration submissions, course details and schedule is located on http://www.iicl.org/education/reefer_course.cfm

The Institute of International Container Lessors, Ltd. (IICL) is a trade association, organized in 1971, representing lessors of maritime containers and intermodal chassis. Its member companies are Beacon, CAI, Cronos, Flexi-Van, Florens, GE SeaCO, Gold, SeaCube, TAL, Textainer, TRAC and Triton. IICL members own or manage approximately 90 percent of the global leased container fleet, representing nearly half of the world container fleet and half of the U.S. chassis fleet operated by ocean carriers, railroads, and other companies. The IICL is active in governmental, regulatory, educational, technological, environmental and security issues. Besides its widely accepted publications and annual inspector certification examinations, the IICL offers a wide range of educational training courses.
