

NEW: Enhanced IICL Certified Inspector Directory Optional Contact Feature

The Institute of International Container Lessors (IICL) Certified Inspector Directory has been updated with a new feature to allow certified inspectors to connect with customers seeking inspection services.

Inspectors who are currently certified now have the option to display their contact details within the Inspector Directory, allowing companies and individuals to contact them for inspection services.

This is an optional feature and inspectors may choose to display the following:

- Telephone number
- Email address
- Both telephone number and email address

After logging into the IICL user account and clicking on their name certified inspectors will be able to select the option in the **update my demographics** page to display one or both of the following:

Inspector Directory

If a certified inspector:

- ☐ Display my phone number in the Certified Inspector Directory(ies)
- ☐ Display my email in the Certified Inspector Directory(ies)

This enhancement is intended to improve visibility for certified inspectors while making it easier for industry professionals to see inspection services via the directory.

Thank you for your continued support of the IICL Inspector Certification Program.
