

The Institute of International Container Lessors

IICL - Equipment Code Standard Update

The IICL updated its Equipment Code Standards "ECS" for refrigerated containers. The updated file is available for download at [ISO/CEDEX Codes - CSS & ECS - IICL](#)

To facilitate the implementation, IICL - ECS files contain a worksheet showing the log of changes made to the previous edition.

Please contact technical@iicl.org in case you have any questions.
