

The Institute of International Container Lessors

IICL CONTAINER **CHASSIS COURSE** IN CHICAGO

The IICL will be conducting a Chassis course in Chicago on Wednesday, October 7, 2026. The course will address inspection & maintenance aspects of container chassis as well as important historical facts around the chassis industry and its essential role in the economy.

Seat availability is limited, therefore, we recommend that participants register for the course as soon as possible. Course will start at 8:30 am and end at 4:30 pm. Coffee, pastries & a light lunch will be provided. Participants will also receive a digital protected copy of the IICL Chassis manual (see more details on our website) as well as a certificate of attendance.

Preliminary agenda:

- About the IICL
- Container & Chassis History
- Chassis in the US versus other countries
- The role of chassis in the economy and supply chain - import and export cargo
- Intermodal Equipment Providers (IEP's)
- Chassis Leasing vs Ownership
- Chassis Pools in marine terminals, depots, etc.
- New Chassis manufacturing – History and current practices
- Chassis remanufacture and refurbishment.
- Chassis sizes/types
- Chassis repair and maintenance providers
- Road Service
- Federal Regulating agencies and industry associations governing container chassis
- Overview of the Guide for Container Chassis Inspection & Maintenance, 4th Ed.
