

To Container Traders, DID YOU KNOW?

The IICL maintains a database of containers from our members that are under recovery or have been stolen. It is easy to search the database and find out if unit(s) are listed in our database and if necessary, contact the owner for further steps. Avoid being involved with transactions that include equipment under recovery or stolen. Check the IICL Equipment Recovery database at [Equipment Recovery Search - The Institute of International Container Lessors \(iicl.org\)](#)

Please contact info@iicl.org in case your need assistance.
